- Never Needs Replacing
- Pure White Light
- Consistent Brightness and Color Regardless of Battery Condition

Specifications

- 3 WATT LUMILED LED
- 6 HR RUNTIME ON FULLY CHARGED BATTERIES
- 100 LUMENS

Introducing the All New StreamStar HP

- **EXTREMELY INTENSE LIGHT** output comes from the **3 Watt Luxeon® LED**. This is the brightest white LED currently manufactured! The LED generates approximately **100 Lumens** of light output.
- **NEVER BURNS OUT.** With a rated 100,000 hr life you should never need to replace a bulb again! No more delicate, expensive bulb to handle.
- **LONGER BATTERY LIFE** results from the higher efficiency of the LED compared to the standard incandescent bulb. Expect a 6 hour runtime instead of 1 hr.
- **SAVE MONEY!** Rechargeable batteries must be replaced after about 300-1000 charge-discharge cycles. The longer run time with the StreamStar HP means fewer charging cycles and more money in your pocket. **PAYS FOR ITSELF IN BULBS AND BATTERIES.**
